Campbell, N. A., and J. B. Reece. 2002. Biology. 6th Edition. Benjamin Cummings, NY. Course Objectives/Student Learning Outcomes: To gain an understanding of the general concepts of evolution, natural selection, and speciation. To gain an understanding of and appreciation for plant and animal diversity as well as their phylogeny.

The authors have updated each of the books eight units to reflect the progress in our understanding of life at many levels, from molecules to ecosystems. The sixth edition has a new chapter that introduces students to science as a way of knowing nature. A new feature highlights examples of the process of science throughout the book, and each chapter contains a process of science question that encourages students to experience science. Media activities allow additional practice with experimentation and analysis of data, and interviews with various researchers humanize science as a social activity.

This #1 best-selling text in introductory biology combines the guiding principles of scientific accuracy, currency, and the power of text-art integration for teaching and learning biology. Biology: Concepts & Connections, Sixth Edition continues to be the most accurate, current, and pedagogically effective non-majors text on the market. This extensive revision builds upon the book's best-selling success with exciting new and updated features. Key concept modules, seamlessly combining text and illustrations, help students keep the big picture in mind and pace their learning, while making it easy for professors to assign selected sections within a chapter. Also within the text, a variety of new chapter opening essays, Connection Modules, and new Evolution Connection Modules help students recognize and appreciate the connections between biology and the world they live in. BioFlix animations, available on the companion website and as part of the instructor resources, offer students unprecedented help in understanding important topics and help invigorate lectures, assignments, or online courses.

Campbell Essential Biology makes biology interesting and understandable for non-majors biology students. This best-selling textbook, known for its scientific accuracy, clear explanations, and intuitive illustrations, has been revised to further emphasize the relevance of biology to everyday life, using memorable analogies, real-world examples, conversational language, engaging new Why Biology Matters photo essays, and more. New MasteringBiology activities engage students outside of the classroom and help students develop scientific literacy skills. KEY TOPICS: Introduction: Biology Today; Cells; Essential Chemistry for Biology; The Molecules of Life; A Tour of the Cell; The Working Cell Cellular Respiration: Obtaining Energy from Food; Photosynthesis:

Using Light to Make Food; Genetics; Cellular Reproduction: Cells from Cells Patterns of Inheritance; The Structure and Function of DNA; How Genes Are Controlled; DNA Technology; Evolution and Diversity; How Populations Evolve; How Biological Diversity Evolves; The Evolution of Microbial Life; The Evolution of Plants and Fungi; The Evolution of Animals Ecology; An Introduction to Ecology and the Biosphere; Population Ecology; Communities and Ecosystems; Animal Structure and Function Unifying Concepts of Animal Structure and Function; Nutrition and Digestion; Circulation and Respiration; The Body's Defenses; Hormones Reproduction and Development; Nervous, Sensory, and Locomotor Systems; Plant Structure and Function; The Life of a Flowering Plant; The Working Plant MARKET: Intended for those interested in gaining a basic knowledge of biology.

ALERT: Before you purchase, check with your instructor or review your course syllabus to ensure that you select the correct ISBN. Several versions of Pearson's MyLab & Mastering products exist for each title, including customized versions for individual schools, and registrations are not transferable. In addition, you may need a CourseID, provided by your instructor, to register for and use Pearson's MyLab & Mastering products. Packages Access codes for Pearson's MyLab & Mastering products may not be included when purchasing or renting from companies other than Pearson; check with the seller before completing your purchase. Used or rental books If you rent or purchase a used book with an access code, the access code may have been redeemed previously and you may have to purchase a new access code. Access codes Access codes that are purchased from sellers other than Pearson carry a higher risk of being either the wrong ISBN or a previously redeemed code. Check with the seller prior to purchase. -- Campbell Essential Biology with MasteringBiology®, Fifth Edition, makes biology irresistibly interesting for non-majors biology students. NOTE: You are purchasing a standalone product; MasteringBiology does not come packaged with this content. If you would like to purchase both the physical text and MasteringBiology search for ISBN-10:0133945138/ISBN-13: 9780133945133. That package includes ISBN-10: 0133999394/ISBN-13: 9780133999396 and ISBN-10:0134031938/ISBN-13: 9780134031934. MasteringBiology should only be purchased when required by an instructor. -- For courses in cell biology. Widely praised for its strong biochemistry coverage, Becker 's World of the Cell, Eighth Edition, provides a clear, up-to-date introduction to cell biology concepts, processes, and applications. Informed by many years of teaching the introductory cell biology course, the authors have added new emphasis on modern genetic/genomic/proteomic approaches to cell biology while using clear language to ensure that students comprehend the material. Becker 's World of the Cell provides accessible and authoritative descriptions of all major principles, as well as unique scientific insights into visualization and applications of cell biology. Media icons within the text and figures call attention to an enhanced media selection – 350 up-to-date animations, videos, and activities – that helps students visualize concepts. The Becker World of the Cell 8e Technology Update brings the power of MasteringBiology to Cell Biology for the first time. MasteringBiology is an online homework, tutorial and assessment system that delivers self-paced tutorials
