I bought the third edition of "Abstract Algebra" by Dummit and Foote. In my opinion this is the best "algebra book" that has been written. I found several solution manual but none has solutions for Chapters 13 and 14 (Field extensions and Galois theory respectively) Is there a solution manual for these chapters?

A google search will turn up many sets of solutions to problems from Dummit and Foote's book. It is to your benefit to use these only as a means of checking your answers. Homework is worth very little of your grade -- in order to do well, you need to use homework exercises as an opportunity to learn rather than copy.
