quantification, using current industry examples to apply the principles of financial management to sport. It then goes beyond the basics to show how financial management works specifically in sport - how decisions are made to ensure wealth maximization. Discussions include debt and equity financing, capital budgeting, facility financing, economic impact, risk and return, time value of money, and more. The final section focuses on sport finance in three sectors of the industry - public sector sports, collegiate athletics, and professional sport-providing in-depth analysis of financial management in each sector. Sidebars, case studies, concept checks, and practice problems throughout provide practical applications of the
