Very Short Introductions Completely revised and updated to include the latest developments in the field of global studies Shows how the transformative powers of globalization reach deeply into the political, cultural, technological, and ecological dimensions of contemporary social life

~~Globalization: A Very Short Introduction
Manfred B ...~~

Globalization is a set of social processes that lead to the social condition of globality, through the growing consciousness of global connectivity. There is no consensus on exactly what processes constitute globalization, but common themes include the creation of networks, expansion of social relations, and the acceleration of social exchange.
