The term "cultural landscape" embraces a diversity of manifestations of the interaction between humankind and its natural environment. Cultural landscapes often reflect specific techniques of sustainable land-use, considering the characteristics and limits of the natural environment they are established in, and a specific spiritual relation to nature.

World Heritage Centre - Cultural Landscapes

With a small sense of exaggeration, one could conclude that no landscape in the world escapes human influences in a greater or lesser degree, and every landscape should, therefore, be called a 'cultural landscape'. A natural landscape is

A natural landscape is the original landscape that exists before it is acted upon by human culture. The natural landscape and the cultural landscape are separate parts of the landscape. However, in the 21st century, landscapes that are totally untouched by human activity no longer exist, so that reference is sometimes now made to degrees of naturalness within a landscape. In *Silent Spring* Rachel Carson describes a roadside verge as it used to look: "Along the roads, laurel, viburnum and alder, g

Natural landscape - Wikipedia

Schluter was the first scientist to write specifically of natural landscapes and cultural landscapes. A natural landscape is made up of a collection of landforms, such as mountains, hills, plains, and plateaus. Lakes, streams, soils (such as sand or clay), and natural vegetation are other features of natural landscapes.
