Nine ducks out for a walk outwit the clever and hungry Mr. Fox, in a counting book that teaches small children the basics of numbers. Reprint.

Issued for use as a kit, consisting of 4 components, tracks articulation skills from preschool through primary and secondary school years and into young adulthood.

Includes Dimensions overview fold-out laminated sheet (28 x 60 cm.)

The long-anticipated new version of the internationally recognized Early Childhood Environment Rating Scale®, ECERS-3, focuses on the full range of needs of preschool- and kindergarten-aged children. This widely used, comprehensive assessment tool measures both environmental provisions and teacher-child interactions that affect the broad developmental needs of young

children, including: Cognitive Social-emotional Physical Health and safety ECERS-3 also includes additional Items assessing developmentally appropriate literacy and math activities. Designed for preschool, kindergarten, and child care classrooms serving children 3 through 5 years of age, ECERS-3: Provides a smooth transition for those already using ECERS-R. Emphasizes the role of the teacher in creating an environment conducive to developmental gains. Is designed to predict child outcomes more accurately and with greater precision. Provides a stronger method of distinguishing between good and truly excellent programs. Offers a complete training program with ongoing support available at the Environment Rating Scales Institute (ERSI) website (www.ersi.info). ECERS-3 is appropriate for state and district-wide QRIS and continuous improvement; program evaluation by directors and supervisors; teacher self-evaluation; monitoring by agency staff; and teacher education. The established reliability and long term evidence of validity of the ERS family of instruments make this new version of ECERS particularly useful for RTTT-ELC accountability and research. Suitable for use in inclusive and culturally diverse programs, ECERS-3 subscales evaluate: Space and Furnishings Personal Care Routines Language and Literacy Learning Activities Interaction Program Structure

Edited by world renown experts with contributions by a global cohort of authors, Auditory-Verbal Therapy: Science, Research, and Practice is highly relevant to today ' s community of practitioners of Auditory-Verbal Therapy (LSLS Cert. AVT), and to those who are working towards LSLS Cert. AVT certification. It is also an excellent resource for audiologists, speech-language pathologists, teachers of children who are deaf or hard of hearing, administrators, psychologists, cochlear implant surgeons, primary care physicians, social workers, and other allied health and education professionals. Although written primarily for practitioners, it will be a welcome resource for parents, family members, and other caregivers who love children who are deaf or hard of hearing, and for whom the desired outcomes are listening, spoken language, and literacy. The book is divided into five parts: Part I: Overview of Auditory-Verbal Therapy: Foundations and Fundamentals This section covers the philosophy, history, and principles of AVT, including outcome data, results of a new survey of LSLS Cert. AVT community on global practice patterns in AVT, information on auditory brain development, and evaluation of evidence-based and evidence-informed practice for the new decade. Part II: Audiology, Hearing Technologies, and Speech Acoustics, and Auditory-Verbal Therapy This section covers audiology and AVT, hearing aids, implantable and hearing assistive devices, and in-depth speech acoustics for AVT. Part III: Developmental Domains in Auditory-Verbal Therapy This section covers the development of listening, three-dimensional conversations, speech, play, cognition, and literacy, as applied to AVT. Part IV: The Practice of Auditory-Verbal Therapy Here strategies for developing listening, talking, and thinking in AVT are covered, including parent coaching, the AVT Session: planning, delivery and evaluation, music and singing, assessment, and inclusion of " AVT children " in the regular preschool. Part V: Extending and Expanding the Practice of Auditory-Verbal Therapy The final section includes information on children with complex hearing issues, children with additional challenges, multilingualism, children and families experiencing adversity, tele-practice, coaching and mentoring practitioners, and cost-benefit of AVT.
