What In The

Universe Over

What is the universe?

The universe contains

everything that exists

including the Earth,

planets, stars, space,

and galaxies. This

includes all matter,

energy, and even

time. How big is the

universe? No one

knows for sure just

how big the universe

is. It could be infinitely

File Type PDF

What In The

Universe Over

large. Scientists,
however, measure the
size of the universe
by what they can see.
