In fairness, the pressure to introduce a grade 10 will not just stem from government. There will be others calling for it, too, as the gloss inevitably starts to fade on grade 9. Level 9 may have been heralded as some largely impenetrable fortress but we can already start to hear the dull, thudding sound of today 's “ only-the-best-grade-will-do ” battering-ram beating at its gates.

The grade (also called slope, incline, gradient, mainfall, pitch or rise) of a physical feature, landform or constructed line refers to the tangent of the angle of that surface to the horizontal. It is a special case of the slope, where zero indicates horizontality. A larger number indicates higher or steeper degree of "tilt". Often slope is calculated as a ratio of "rise" to "run", or as a ...

"In this module, students learn about health through the perspectives of a cell biologist, nutrition scientist, biochemist, physiologist, public health practitioner, consumer, and citizen. Messages about being healthy permeate society. Students will develop an in-depth understanding of what the body needs to function properly by closely examining the topics of cell metabolism and structure. Students will work in teams to investigate healthy lifestyle, examining the physiological effects of exercise and nutrition on health. Further, students will identify factors that inhibit and enhance health and interview key stakeholders in their communities"--
